

A Kids Book About

The first thing you'll notice about our books is that they're different. We wanted to create books that treated kids like they were smart and spoke to them straightforwardly and honestly. Our books emphasize color, layout, and type to help kids apply the stories to their lives instead of only thinking of the characters in the book. Our books are twice as long as most children books, enabling a deeper dive on each subject. Our books are honest and don't shy away from the most difficult aspects of each topic.

We make kids books that matter. There are no dragons, silly bears, or cute tales about princesses. Only the challenging, empowering, and important topics that kids experience every day. Kids' lives are complicated, and our mission is to help kids and their grownups have honest conversations about things that matter.

Pricing

\$27.93 / \$23.74

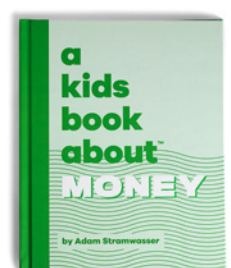

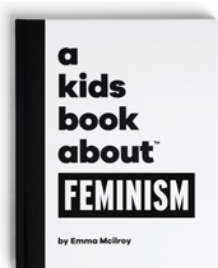

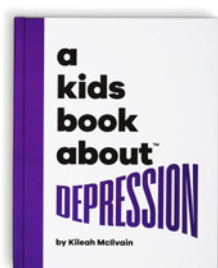

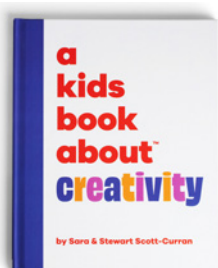

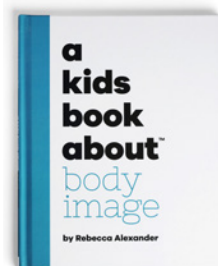

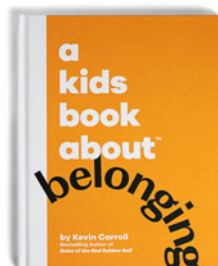

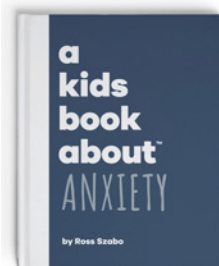

Features

Reading Level: Grades K-3
64 or 72 pages • 8 x 10"
